

## Spring 2027 Physiology Courses

**Before taking Physiology upper division courses PSIO 201 & 202 must be completed with a C or better.**

| PSIO | Title                                                                                                                                                                                                                                                                                                                                                        | Prerequisites                                                                                         |
|------|--------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|-------------------------------------------------------------------------------------------------------|
| 101  | Tackling Physiological Topics, 3 units<br>(Dr. McNabney)<br>Lecture TR 12:30-1:45pm, HSIB 642                                                                                                                                                                                                                                                                | PSIO majors with freshman or sophomore status.<br>Appropriate for students in their first year at UA. |
| 201  | Human Anatomy & Physiology I, 4 units<br>Lecture 001/002- (Drs. Maley/Reef), MWF 11-11:50am, ENR N-120<br>Labs 001A – 001R: see schedule of classes for lab times<br>Lecture 003- (Drs. Maley/Lease) MWF 12-12:50pm, ILC 120<br>Labs held in BIOE 116<br>Lecture 100- (Dr. Klass), Labs 100A-B, Hybrid, F 3-4:20pm, Commons 310<br>1 <sup>st</sup> -7week    |                                                                                                       |
| 202  | Human Anatomy & Physiology II, 4 units<br>Lecture 001/002- (Dr. McNabney) MWF 9-9:50am, ENR N-120<br>Labs 001A - 001U: see schedule of classes for lab times<br>Lecture 003- (Dr. McNabney) MWF, 10-10:50am, ENR N-120<br>Labs held in Koffler 510 & 112<br>Lecture 100- (Dr. Price) Labs 100A-B, Hybrid, F 3-4:20pm, Commons 310<br>2 <sup>nd</sup> -7-week | PSIO 201                                                                                              |
| 295H | Introduction to Honors in Physiology, 2 units<br>(Drs. Coletta & Rankin)<br>3:30-5:10pm- honors students only, W, ILC 119                                                                                                                                                                                                                                    | PSIO 201<br>Prerequisite or concurrent registration PSIO 201                                          |
| 305  | Integrative Systems Physiology, 3 units<br>(Drs. Keen & Bao)<br>10:00-10:50am, MWF, PAS 201                                                                                                                                                                                                                                                                  | CHEM 151, CHEM 152, MATH 122A/B or 125, MATH 119a, PSIO 201, PSIO 202                                 |
| 380  | Fundamentals Human Physiology, 4 units<br>(Dr. Kanady)<br>Lecture 9:30-10:45am, TR, EDUC 310<br>Section 001A: (Discussion) 12:30-1:20pm, R, MLNG 506<br>Section 001B: (Discussion) 2:00-2:50pm, R, MLNG 506                                                                                                                                                  | Open to non-physiology majors only.                                                                   |
| 395A | Physio Connects A, 2 units<br>(Dr. Klass)<br>4-4:50pm, MW ILC 141                                                                                                                                                                                                                                                                                            | PSIO 201<br>Prerequisite or concurrent registration PSIO 201                                          |
| 404  | Advanced Topics in Cellular Physiology, 3 units<br>(Dr. Price)<br>11am-12:15pm, TR, SHNTZ 242E                                                                                                                                                                                                                                                               | PSIO 201, PSIO 202 and PSIO 303A, PSIO 303B, PSIO 303, or PSIO 305.                                   |
| 411  | Science Methods & Professional Ethics, 3 units<br>(Dr. Lease)<br>9:30-10:45am, TR, EDUC 308                                                                                                                                                                                                                                                                  | PSIO 201, PSIO 202                                                                                    |
| 420  | Exercise & Environmental Physiology, 3 units<br>(Dr. Keen)<br>12-12:50pm, MWF, ILC 130                                                                                                                                                                                                                                                                       | PSIO 201, PSIO 202                                                                                    |
| 425  | Meas. & Eval. of Physiological Function, 3 units<br>(Dr. Keen)<br>11am-12:35pm, Th, Lecture, ILC 151<br>Section 001A: 12:30-2:50pm T (lab) GITT 36<br>Section 001B: 3:00-5:20pm T (lab) GITT 36                                                                                                                                                              | PSIO 201, PSIO 202<br>Prerequisite or concurrent registration PSIO 420                                |

|      |                                                                                                                                                                                                            |                                              |
|------|------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|----------------------------------------------|
| 429  | Muscle Physiology, 3 units,<br>(Dr. Klass)<br>2-2:50pm, MWF, SSCI 206                                                                                                                                      | PSIO 201, PSIO 202                           |
| 431  | PSIO of the Immune System, 3 units<br>(Dr. Cohen)<br>2-3:15pm, TR, GITTINGS 129B, Sec 002: Open to PSIO honors students                                                                                    | PSIO 201, PSIO 202                           |
| 441  | Musculoskeletal Kinesiology, 3 units<br>(Dr. Lee-Confer)<br>12:30-1:45pm, TR, HSIB 444                                                                                                                     | PSIO 201, PSIO 202                           |
| 465  | Neurophysiology, 3 units<br>(Dr. Fuglevand)<br>9-9:50am, MWF, ILC 140                                                                                                                                      | PSIO 201, PSIO 202                           |
| 469  | Human Reproductive Physiology, 3 units<br>(Dr. Weinstein)<br>12:30-1:45pm, TR, ILC 140                                                                                                                     | PSIO 201, PSIO 202                           |
| 484  | Cardiovascular Muscle Biology & Disease, 3 units<br>(Drs. Granzier & Konhilas)<br>8-9:15am, TR, MRB 102                                                                                                    | PSIO 201, PSIO 202 and PSIO 303 or PSIO 305  |
| 489  | Current Topics in Physiology, 3 units<br>001 - (Dr. Rankin) 3:30-4:45pm, TR, GITTINGS 201<br>Section 002a: open to PSIO honors students only with extra discussion:<br>5-5:50pm, R (4 units), GITTINGS 207 | PSIO 201, PSIO 202 and Senior Class Standing |
| 493  | Health Connectors Internship, 3 units<br>Section 002 Health Connectors– (Amber Price; Dr. Rankin)<br>4-7pm, M, HSIB 322<br>Section 003 Super Connectors– (Amber Price; Dr. Rankin)<br>4-7pm, M, HSIB 322   |                                              |
| 495M | Musculoskeletal Physiology Colloquium, 2 units<br>(Dr. Stanescu)<br>2:30-4:10pm R, EDUC 308                                                                                                                | PSIO 201, PSIO 202                           |
| 497L | Leadership & Engagement in Teaching, 3 units<br>(Dr. McNabney)<br>12:30-1:45pm, TR, HSIB 640/642<br>1-1:50pm, W, MLNG 502                                                                                  | PSIO 201, PSIO 202                           |

**Priority Registration:**

**SENIORS - November 6<sup>th</sup>**; registration beginning at 6 a.m.

**HONORS JUNIORS - November 9<sup>th</sup>**; registration beginning at 6 a.m.

**JUNIORS - November 11<sup>th</sup>**; registration beginning at 6 a.m.

**HONORS SOPHOMORES - November 13<sup>th</sup>**; registration beginning at 6 a.m.

**SOPHOMORES AND HONORS FIRST-YEARS - November 16<sup>th</sup>**; registration beginning at 6 a.m.

**FIRST-YEARS - November 18<sup>th</sup>**; registration beginning at 6 a.m.

Please contact Lupita Estrella at [lestrell@arizona.edu](mailto:lestrell@arizona.edu) if you have any registration questions or concerns.
