J. David Symons, PhD

*Professor, Nutrition and Integrative
Physiology, University of Utah*

Host: Paulo Pires

"Cerebral endothelial cell metabolism drives outcomes of acute ischemic stroke"

J. David Symons received his Bachelor's degree from the University of British Columbia in Vancouver, BC Canada. He then attended the University of Oregon for his MS and PhD degrees. For postdoctoral training he first completed a Visiting Fellowship sponsored by the National Research Council of Canada at the Defense and Civil Institute of Environmental Medicine in Toronto, Ontario, Canada in the Biosciences Division, Environmental Physiology Section. Next, he completed at Visiting Scholar Program at the University of California, Davis in the Department of Internal Medicine, Division of Cardiovascular Medicine. Symons has been at the University of Utah since 2001 and is Professor in Nutrition and Integrative Physiology, and is an Investigator in the School of Medicine Molecular Medicine Program.
